

PowerFeed[®]

PLANT FOOD

READY TO USE **INDOOR & POTTED PLANTS**

PowerFeed Indoor & Potted Plants is an easy to use 1.25Ltr trigger pack especially designed for pots and plants, **in an vibrant new orange container**. (upgrade from green)

PowerFeed Indoor & Potted Plants is a organically based fertiliser and soil improver that is safe to use on any plant in any pot, indoor or out. From delicate ferns and orchids, to succulents, natives, foliage and flowering plants, herbs, vegies and fruit trees.

PowerFeed Indoor & Potted Plants boosts plant growth and vigour by providing a dynamic range of nutrients, trace elements, fish and seaweed. It also helps to promote bigger blooms and tastier fruit and vegies.

PowerFeed Indoor & Potted Plants contains highly active liquid compost which conditions the soil and improves nutrient uptake.

PowerFeed Indoor & Potted Plants is a fast acting liquid. Simply spray around the soil or the base of the plant or apply via a watering can. Apply every 2 to 4 weeks, check out the application rates on the back of the pack.

It is not recommended to apply on days over 25° degrees.

Press Release - **New** Product
