

PRODUCT INFORMATION

EarthCare

ORGANIC WEEDKILLER

EarthCare Organic WeedKiller is a non-selective organic contact herbicide, that kills and controls a broad range of weeds and lichen, algae and moss.

INSTRUCTIONS FOR USE

Use it around the house and garden, on paths, driveways and as a spot spray on lawns. **TAKE CARE: IT WILL KILL ANY PLANT THAT IT COMES INTO CONTACT WITH. DO NOT SPRAY IT AROUND YOUR FAVOURITE PLANTS.**

EarthCare Organic WeedKiller is available in three applications - two ready-to-use trigger sprays, 1 litre or 3 litre, and a 1 litre concentrate that mixes with water in your own spray applicator.

APPLICATION DIRECTIONS

To be effective, **EarthCare Organic WeedKiller** must come into contact with the green parts of the plant. **EarthCare Organic WeedKiller** will control many weed species and is non-selective.

Trigger-Spray

Shake well before use. Turn the nozzle, point the container at the weed and spray the weed. Ensure that all weed foliage is totally covered with spray, as **EarthCare Organic WeedKiller** is a contact spray only. Partial coverage will give only partial control. Check out the image below.

Concentrate

Half fill the spray applicator with water and slowly add the required amount of **EarthCare Organic WeedKiller** concentrate. Ensure the mixture is well mixed and then top up with the required amount of water. Shake well before use. DO NOT mix more than is needed.

***General application:** 70mL of **EarthCare Organic WeedKiller** concentrate per litre of water. For more detailed instructions, please read the back of the label or check the QR code below.

Apply by ground equipment only using for example boom or spot sprayers. Apply using a coarse droplet spray.

EarthCare Organic WeedKiller is available from Bunnings in a range of sizes to meet every gardener's needs.

Controls a broad range of weeds and lichen, algae and moss. Check the QR code for all weed varieties

Glyphosate free, it is a non-selective natural contact herbicide containing pelargonic acid (nonanoic acid)

Rapid action, visible results are seen within hours when sprayed over the entire foliage

Non-residual and bio-degradable. It breaks up rapidly in the soil, so there is no residue build-up

USAGE TIPS

EarthCare Organic WeedKiller is the perfect partner to control any weed. Ensure to read all label instructions before use.

- ✓ Ideal to spray around pathways and the driveway. Make sure to cover all the weed foliage and protect your favourite plants nearby.
- ✓ DO NOT apply if rainfall is expected before spray deposits dry on plant surfaces. DO NOT apply in windy conditions.
- ✓ Let **EarthCare Organic WeedKiller** go to work on the weed and dry-off before letting animals or people go into the treated area.
- ✓ Weeds can also be removed by hand, trowel or spade. Ensure to get the entire weed including their roots or bulbs.
