

PRODUCT INFORMATION

PowerFeed PRO SERIES POTS & PLANTERS

PowerFeed PRO SERIES for Pots & Planters - Indoors & Outdoors is a dynamic fertiliser boosted with fish, seaweed and liquid compost.

A premium performer for happy and healthy potted plants, indoors or outdoors. It contains a balanced nutrient and trace element mix to promote healthy, lush growth, and stimulates flowering and fruiting.

Added seaweed helps to improve the root system and reduce stress caused by pot life including low light, heat, drought, frost, pests and diseases.

Boosted with liquid compost it conditions the potting mix or soil to improve soil health and maximise nutrient and moisture uptake by plants.

INSTRUCTIONS FOR USE

PowerFeed PRO SERIES for Pots & Planters is a fast-acting liquid that goes to work immediately when applied to the foliage or potting mix soil. For best results, use regularly every 1 to 2 weeks throughout the year depending on the plant and its requirements.

Safe on all potting mix soils and plants including natives, vegies, fruiting and flowering plants, it can be applied via a watering can. Generally, mix 50mL of concentrate per 9 litres of water or follow the application table below for more specific rates. Each 9 litre watering can application treats up to 2 to 4 square meters of plants or soil.

PLANT TYPE	RATE PER 9L WATERING CAN	FREQUENCY
Ferns	10mL	1 - 2 weeks
Indoors/Seedlings/Potted Colour	20mL	1 - 2 weeks
New Plantings	30mL	At planting & again 2 weeks later
Herbs, Vegies & Annuals	50mL	1 - 2 weeks
Flowers, Fruit & Citrus	90mL	1 - 2 weeks
Established Plants	90mL	2 weeks

USAGE TIPS

PowerFeed PRO SERIES for Pots & Planters is the perfect partner for indoor or outdoor potted plants whenever it's needed.

- ✓ Quick and easy to use, regular applications keep plants looking good.
- ✓ Apply when maintaining indoor plants. Check plants are in the right position to ensure they get enough light.
- ✓ Prune damaged foliage on outdoor plants and apply **PowerFeed PRO SERIES Pots & Planters** to give plants a boost.
- ✓ To avoid plant stress on hot days, apply early in the morning or late in the day when it is cooler.
- ✓ In cold and frosty weather apply to the soil early morning to reduce the chance of fungal diseases on the foliage.
