

PRODUCT INFORMATION

PowerFeed PRO SERIES ROSES & FLOWERS

PowerFeed PRO SERIES for Roses & Flowers is a dynamic fertiliser and soil improver with fish and seaweed, and extra soil improver*.

A premium performer for larger yields of bigger, brighter more colourful blooms. It contains a balanced nutrient and trace element mix to promote healthy growth without excess foliage.

Boosted with seaweed, it helps stimulate strong root growth and increases tolerance to heat, drought, frost, pests and diseases.

It contains liquid compost which helps to improve soil health to maximise nutrient and moisture retention.

INSTRUCTIONS FOR USE

PowerFeed PRO SERIES for Roses & Flowers is a fast-acting liquid that goes to work immediately whether applied to the soil or foliage. For best results, use regularly every 1 to 2 weeks throughout the year depending on the rose or flowering plant or tree.

Safe on all plants and soils, it can be applied via a watering can. Generally, mix 50mL of concentrate per 9 litres of water or follow the application table below for more specific rates. Each 9 litre watering can application treats up to 2 to 4 square metres of plants or soil.

PLANT/APPLICATION	RATE PER 9L WATERING CAN	APPLICATION FREQUENCY
Indoors	20mL	1 - 2 weeks
Seedlings	20mL	1 - 2 weeks
Potted Roses & Flowering Plants	50mL	1 - 2 weeks
Established Flowering Trees	90mL	1 - 2 weeks

TYPICAL ANALYSIS

W/W: Nitrogen (N) 7.0%.
Phosphorus (P) 2.0%.
Potassium (K) 8.0%

* Compared to PowerFeed Plant Food (green) All Purpose including Natives.

Promotes healthy growth without excessive foliage for all roses & flowers

Stimulates flowering for beautiful longer-lasting colourful blooms

Liquid compost helps to improve the soil structure to increase worm activity

Contains added iron to minimise leaf yellowing while promoting healthy budding & flowering

USAGE TIPS

PowerFeed PRO SERIES for Roses & Flowers is the perfect partner for all roses and flowering plants in the garden or pot.

- ✓ Quick and easy to use, it's great for soil or potting mix.
- ✓ Apply when deadheading spent flowers or picking flowers for a beautiful vase display.
- ✓ Ensure a deep regular watering regimen and prune as required for healthy plants.
- ✓ To avoid plant stress on hot days, apply early in the morning or late in the day when it is cooler.
- ✓ In cold and frosty weather apply to the soil early morning to reduce the chance of fungal diseases on the foliage.
