

PRODUCT INFORMATION

Seasol ADVANCED

Seasol Advanced with added nutrients and soil conditioners provides a dynamic combination of benefits to every plant in the garden, including natives.

It has the plant tonic effects of **Seasol**, stimulating root growth, enhancing flowering and fruiting, and increasing tolerance to drought, frost, heat, pests, and disease.

Seasol Advanced is enriched with a balanced source of nutrients and trace elements to boost vigorous, healthy growth and liquid compost to condition the soil and improve nutrient uptake.

INSTRUCTIONS FOR USE

Seasol Advanced 2 litre hose-on is a ready-to-use fast-acting liquid that goes to work immediately when applied to the foliage or soil. Its gentle formula means that it can be applied regularly every fortnight to month during the growing season.

It is safe on all soils, lawns and plants including vegies, seedlings, flowering and fruiting plants and natives.

APPLICATION DIRECTIONS

Seasol Advanced 2 litre hose-on is ready-to-use. Simply shake the container, push the plastic straw included in the pack firmly into the underside of the spray nozzle.

Remove the cap and attach the spray nozzle. Attach to the hose, turn on the tap, lift the yellow tab and spray onto the garden or lawn. It is also great to use on pot plants.

Each 2 litre hose-on pack will treat up to 100 square metres of lawn or garden.

Seasol Advanced hose-on solution can be applied via a watering can application.

If required, it can be diluted for watering can use at the rate of 80mL (for seedlings) and 200mL (for established gardens and lawns) of **Seasol Advanced** solution per 9L of water.

TYPICAL ANALYSIS

W/V: Nitrogen (N) 1.5%
Phosphorus (P) 0.2%.
Potassium (K) 1.4%

Seasol ADVANCED is available from Bunnings in a 2 litre hose-on twin pack to meet every gardener's needs.

No mixing required - simply attach to the hose to boost healthy vigorous growth

Enhances flowering & fruiting for colourful blooms and tasty produce

Promotes strong root development and reduces environmental stresses

Revitalises soil health to improve moisture and nutrient retention

USAGE TIPS

Seasol Advanced is ready to use as the perfect partner for any plant or lawn project when applied regularly.

- ✓ In summer apply early morning or late in the day when it is cooler to avoid foliage burn.
- ✓ In cooler weather apply to the foliage once the temperature increases to give the foliage time to dry before nightfall. This helps to prevent fungal diseases.
- ✓ Apply **Seasol Advanced** when maintaining the garden and lawn for a complete health boost.
- ✓ Safe on all edible produce, it's ideal to use when maintaining and harvesting fruit, citrus and vegetables. Wash all produce thoroughly before consuming.
- ✓ Due to the natural ingredients in the product avoid contact with porous surfaces. If contact is made, please wash off immediately with water.
