

PRODUCT INFORMATION

Seasol GOLD + Calcium

Seasol GOLD + Calcium is a unique patented technology with calcium and other essential elements that enhance the efficiency and benefits of seaweed to all soils and plants all year round.

INSTRUCTIONS FOR USE

Seasol GOLD is a fast-acting liquid that goes to work immediately whether applied to the soil or foliage. Regular applications, every 2 to 4 weeks, will give the best results. It is safe on all plants including Aussie natives, flowers, ferns, seedlings, and indoor plants.

Seasol GOLD is available as a 1.25 litre ready-to-use trigger spray, 1.2 litre concentrate or 1.2 litre hose-on pack.

Trigger-Spray

Application is easy as it's already mixed in the container. Generally, apply by spraying the potting mix soil, garden soil or foliage of the plant.

Concentrate

To use the concentrate generally mix 40mL of **Seasol GOLD** concentrate per 9 litres of water (standard watering can) or use the application rate table below. Each 9 litre watering can treats up to 2 to 4 square metres of garden or lawn.

Hose-On

Simply shake the container and attach it to the hose. Turn on the tap, lift the yellow tab and spray onto the garden. Each 1.2 litre hose-on treats up to 60 square metres of the garden in around 8 minutes. To refill the 1.2 litre container, add 300mL of **Seasol GOLD** concentrate and top up with 900mL of water.

PLANT/APPLICATION TYPE	RATE/9L	APPLICATION FREQUENCY
Indoor Plants, Ferns & Foliar Application	20mL	Every 2-4 weeks
Transplanting & Planting	40mL	At planting & again 1 week later
Vegies, Herbs, Annuals & Established Gardens	40mL	Every 2-4 weeks
New Lawns	60mL	Every 7-10 days while establishing
Lawns	100mL	Every 2-4 weeks to maintain
Large Stressed Trees	100mL	Monthly to soil at dripline of tree

Seasol GOLD is available from Bunnings in a range of sizes and applications for every gardener's needs.

Enhanced with calcium and other essential elements, it provides an extra boost in the growing season

Promotes robust growth and enhances nutrient uptake to improve flower and fruit development and yields

Aids plant establishment to promote rapid, strong root development and growth

Strengthens and boosts plant health to give plants better resistance to heat, drought, frost, pests & disease

USAGE TIPS

Seasol GOLD is the perfect partner for any gardening project, applied regularly throughout the year.

- ✓ In summer apply early morning or early evening before the heat of the day. Never apply to the foliage on a hot day as it may burn.
- ✓ In winter apply in the morning to the soil after the frost has cleared. This gives the plant time to dry before nightfall, to help prevent fungal attack.
- ✓ Before planting, soak the seedling tray or pot plant in a bucket of **Seasol GOLD** to reduce transplant shock. Safe on all plants including Aussie natives.
- ✓ Mix **Seasol GOLD** with **PowerFeed** in the same watering can for a complete garden boost.
- ✓ Due to the natural ingredients in the product, avoid contact with porous surfaces. If contact is made, please wash off immediately with water.
