

PRODUCT INFORMATION

Seasol for Buffalo Lawns

Seasol for Buffalo Lawns with all the benefits of Seasol, plus a superior nutrient mix, trace elements, liquid compost and a wetting agent, has been specifically formulated for Buffalo and all types of lawns.

INSTRUCTIONS FOR USE

Seasol for Buffalo Lawns is a fast-acting liquid that goes to work immediately when sprayed onto an established lawn during the growing season. Regular fortnightly or monthly applications will promote a healthy, lush green lawn.

For buffalo lawns, it is enhanced with extra potassium for healthier and stronger, wider leaf blades. It is the perfect pick me up for all lawns all year round. For other types of lawns, there is also **Seasol for Lush Green Lawns**.

*Do not spray on new lawn seed or turf, apply **Seasol** or **Seasol Lawn & Turf Starter** every week for the first six weeks.

Seasol for Buffalo Lawns is available via a hose-on pack or concentrate using a watering can or spray applicator

APPLICATION DIRECTIONS

Hose-On

The hose-on pack is ready to use. Simply shake the container, push the plastic straw included in the pack, firmly into the underside of the spray nozzle. Remove the cap and attach the spray nozzle. Attach to the hose, turn on the tap, lift the yellow tab and spray onto the lawn. Each 2-litre hose-on treats up to 100 square metres of lawn

Seasol for Buffalo Lawns hose-on solution can be applied via a watering can application. Generally, mix 80mL of the hose-on solution per 9 litres of water. To refill the 2 litre hose-on pack add 800mL of concentrate and top up with 1.2 litres of water.

Concentrate

To use the concentrate via a watering can application generally mix 60mL of **Seasol for Buffalo Lawns** concentrate per 9 litres of water. Each 9 litre watering can application treats up to 2 to 4 square meters of lawn.

To use the concentrate via 10 litre spray applicator, generally mix 1.5 litres of concentrate per 8.5 litres of water. Each 10 litre spray applicator will treat 50 to 100 square meters of lawn.

TYPICAL ANALYSIS (Hose-On)

W/V: Nitrogen (N) 7.0%. Phosphorus (P) 0.8%. Potassium (K) 7.0%.

Promotes stronger root growth for stronger, lush, green lawns

Feeds and revitalises for a stronger, healthier lawn

Gets water to the lawn's root system and reduces stress from heat, drought, frost and foot traffic

Conditions the soil, increasing soil friability and nutrient uptake

USAGE TIPS

It's the perfect partner for any lawn project, applied regularly throughout the growing season.

- ✓ In summer apply early morning or early evening before the heat of the day as it may burn the foliage.
- ✓ It is ideal to use as part of your lawn maintenance regime especially after mowing as it helps to reduce the stress on the lawn.
- ✓ It is a quick and easy to apply liquid, all your lawn needs are in one product.
- ✓ Let **Seasol for Buffalo Lawns** go to work on your lawn and dry off before letting your animals go back onto the lawn.
- ✓ Due to the natural ingredients in the product avoid contact with porous surfaces. If contact is made, please wash off immediately with water.

Seasol for Buffalo Lawns is available from Bunnings in a 2 litre hose-on twin pack, and 2.4 litre and 4 litre concentrate.
