

PRODUCT INFORMATION

Seasol Liquid Compost

Seasol Liquid Compost is a dynamic soil conditioner, soil improver and plant health treatment in one.

It's your easy to use no-dig option for a superior soil improver plus natural seaweed plant tonic for all soils.

Seasol Liquid Compost contains highly active liquid compost, seaweed, fish and nutrients to help revitalise soils.

- The highly active liquid compost improves the soil structure and soil moisture retention.
- The seaweed, fish and nutrients helps boost the soil biology to increase root growth and maximise nutrient uptake.
- Seasol helps promote strong healthy roots and overall plant health.

INSTRUCTIONS FOR USE

As a fast-acting soil improver it goes to work immediately when applied to the soil. For a general maintenance application use **Seasol Liquid Compost** every 3 to 6 months, or for extremely poor soils, apply every 2 weeks or whenever needed until the soil improves.

It is available in a concentrate via a watering can application or a hose-on pack.

APPLICATION DIRECTIONS

Concentrate

To use the concentrate, generally mix 50mL of **Seasol Liquid Compost** concentrate per 9 litre of water. Each 9 litre watering can treats up to 2 to 4 square metres of soil. For extremely poor soils use 100mL of concentrate per 9 litres (standard watering can).

Hose-On

Seasol Liquid Compost hose-on pack is ready to use. Simply shake the container. Push the yellow straw into the underside of the green spray nozzle. Remove the cap and replace it with the green spray nozzle. Attach the hose and turn on the tap to a medium pressure. Lift the yellow tab and spray your soil. To cease operation push down on the yellow tab and turn off the hose. Each 2-litre hose-on treats up to 100 square metres of garden in around 10 minutes.

To refill the 2-litre container, add 500mL of **Seasol Liquid Compost** concentrate and 1.5 litres of water.

Seasol Liquid Compost is available from Bunnings in a range of sizes to meet every gardener's needs.

Available in 1.2L concentrate and 2L hose-on twin pack

Rejuvenates soil to help improve worm and microbial activity

Improves soil after garden preparation to help boost strong root growth

Enhances soil fertility to help break up clay and reduce nutrient loss in sandy soil

Seaweed complete garden health treatment boosts healthy growth in all plants

USAGE TIPS

It's the perfect partner for any soil project applied whenever it is needed throughout the year.

- ✓ Perfect to use around plants in the garden as the no-dig formulation ensures the plant's root system is not damaged.
- ✓ In summer apply early morning or early evening before the heat of the day to improve soil moisture retention.
- ✓ Ideal to use as part of your soil maintenance program for both the garden and lawn.
- ✓ Check the soil underneath the eaves of the house, as this area is often neglected.
- ✓ Due to the natural ingredients in the product avoid contact with porous surfaces. If contact is made, please wash off immediately with water.
