

PRODUCT INFORMATION

Seasol Organic* Iron for Deep Green Lawns

Seasol Organic* Iron for Deep Green Lawns combines **Seasol The Seaweed Solution** with organic chelated iron to revitalise, strengthen and green your lawn.

INSTRUCTIONS FOR USE

Seasol Organic* Iron for Deep Green Lawns is particularly useful for lawns and turf that have yellowed due to a lack of iron.

Iron plays an important role in all lawns and turf, including helping to provide a nice green colour. It also helps with photosynthesis and creating chlorophyll (the lush deep green colour).

New peptide chelating technology helps deliver iron organically* for a lush, deep green lawn. **Seasol Organic* Iron for Deep Green Lawns** also contains natural organic* nitrogen to promote strong growth.

Seasol Organic* Iron for Deep Green Lawns is a fast-acting liquid which goes to work immediately to repair and maintain lawns. It is safe for all lawn types including Buffalo.

INSTRUCTIONS FOR USE

Hose-On

Simply shake the container and attach it to the hose. Turn on the tap, lift the yellow tab and spray onto the lawn.

Application Rates - Iron Deficiency Correction

For best results, apply once a month until the lawn improves. Spray the lawn for a longer period, so each 1.2-litre hose-on treats up to 100 square metres of the lawn in around 10 minutes.

Application Rates - Lawn Maintenance

For best results, apply once a month or whenever needed. Spray the lawn lightly so each 1.2 litre hose-on treats up to 200 square metres of lawn in 10 minutes.

Watering Can Application

If required, it can be applied via watering can at a rate of 120mL per 9 litres of water. This will cover up to 20 square metres of lawn.

*This product is allowable for use in lawns or gardens certified to the Australian Certified Organic Standard.

TYPICAL ANALYSIS

W/V: Nitrogen (N) 1.1%.
Phosphorus (P) 0.2%.
Potassium (K) 0.5%.
Iron (Fe) 2.6%.

Seasol Organic* Iron for Deep Green Lawns is available from Bunnings in a 1.2 litre hose-on for every gardener's needs.
