

PRODUCT INFORMATION

Seasol Pots & Plants

Seasol Pots & Plants trigger spray has all the plant-energising benefits of **Seasol the Seaweed Solution** in a convenient ready-to-use trigger pack designed for pots and plants.

A unique soil formulation, it helps to improve plant health and promote strong root development. It also reduces pot plant stresses such as low light, heat, cold, pests and diseases.

INSTRUCTIONS FOR USE

Seasol Pots & Plants 1.25L trigger spray is a fast-acting liquid that goes to work immediately when applied to the soil.

APPLICATION DIRECTIONS

Ready-to-use

Regular applications, every 2 to 4 weeks, will give the best results. Being completely natural, it's safe on all pots and plants including Aussie natives, vegies, and flowering plants at any time of the year.

Application is easy as it's already mixed in the container. Apply by spraying the potting mix or soil around the base of the plant. Do not apply to the foliage or it may burn.

1 spray = 2mL approx. or use the application table below.

Watering can application

This solution can be diluted for watering can applications at 2 sprays/4mL for seedlings and small pots to 5 sprays/10mL for established plants and larger pots per litre of water.

POT SIZE	NUMBER OF SPRAYS PER APPLICATION	FREQUENCY OF USE
5cm pot	1 spray / 2mL	Every 2 - 4 weeks
12cm pot	2 sprays / 4mL	Every 2 - 4 weeks
20cm pot	3 sprays / 6mL	Every 2 - 4 weeks
30cm pot	4 sprays / 8mL	Every 2 - 4 weeks
40cm pot	5 sprays / 10mL	Every 2 - 4 weeks

Seasol Pots & Plants is available from Bunnings in a 1.25L trigger spray to meet every gardener's needs.

Improves seed germination and aids plant establishment

Helps plants cope with the stresses of pot life including low light, heat, drought, frost, pests & disease

No mixing required. Easy spray action to the soil for lush foliage, flowering & fruiting

USAGE TIPS

Seasol Pots & Plants trigger spray is the perfect partner for any pot or plant project, applied regularly throughout the year.

- ✓ In winter, apply in the morning to the soil once the weather warms up.
- ✓ In summer, apply early morning or evening before the heat of the day. Never apply to the foliage as it may burn it.
- ✓ Spray the potting mix soil before transplanting to another pot to aid with establishment and a strong root system.
- ✓ Spray potting mix of freshly sown seeds every week to help with germination and healthy growth. Potting mix should be moist but not wet.
- ✓ Move pot plants to their ideal location each season. Move them away from the hot sun in summer and closer to the light and sun in winter.
- ✓ Due to the natural ingredients in the product avoid contact with porous surfaces. If contact is made, please wash off immediately with water.
