

## Product

## Seasol Power Feed Plant Food Granules Fruit & Citrus

## Technical Analysis

| Composition                 |                                 |              |
|-----------------------------|---------------------------------|--------------|
| Appearance                  | Brown coloured granular mixture |              |
| Odour                       | Slightly earthy odour           |              |
| Element                     | Amount                          | Units        |
| <b>Total Nitrogen (N)</b>   | <b>9.0%</b>                     | <b>% w/w</b> |
| Urea                        | 4.8%                            | % w/w        |
| Ammonium                    | 4.2%                            | % w/w        |
| Nitrate                     | 0.4%                            | % w/w        |
| <b>Total Phosphorus (P)</b> | <b>1.2%</b>                     | <b>% w/w</b> |
| Water Soluable              | 0.3%                            | % w/w        |
| Citrate Soluable            | 0.4%                            | % w/w        |
| Insoluable                  | 0.5%                            | % w/w        |
| <b>Total Potassium (K)</b>  | <b>9.0%</b>                     | <b>% w/w</b> |
| Boron (B)                   | 30                              | ppm          |
| Calcium (Ca)                | 4.8%                            | % w/w        |
| Copper (Cu)                 | 400                             | ppm          |
| Iron (Fe)                   | 2.0%                            | % w/w        |
| Magnesium (Mg)              | 1.2%                            | % w/w        |
| Manganese (Mn)              | 4300                            | ppm          |
| Molybdenum (Mo)             | 4.5                             | ppm          |
| Nickel (Ni)                 | 23                              | ppm          |
| Silicon (Si)                | 6.8%                            | % w/w        |
| Sulphur (S)                 | 13.8%                           | % w/w        |
| Zinc (Zn)                   | 492                             | ppm          |

## Product Information

Seasol Power Feed Plant Food Granules for Fruit & Citrus is manufactured in Australia by Seasol International (a division of DuluxGroup). The chemical analysis is compiled from samples analysed by accredited Australian laboratories. The above analytical data is a typical average across different production batches. Seasol Power Feed Plant Food Granules for Fruit & Citrus is a natural product; hence the concentrations of individual components may vary from batch to batch.
