PRODUCT INFORMATION

Seasol® Power Feed® Lawn Food Granules

All Lawn Types

A complete fertiliser for all lawn types.

Boosts Soil Health

Fast Greening

Builds Lawn Resilience

Seasol® Power Feed® Lawn Food Granules All Lawn Types deliver complete lawn nutrition with a powerful blend of fertiliser, organic manure and beneficial microbes to help your lawn thrive.

The advanced formulation supports strong, resilient lawn growth, while added beneficial microbes help unlock nutrients in the soil to support a healthier soil environment.

With a balanced supply of nitrogen, phosphorus and potassium, plus added trace elements, **Seasol® Power Feed® Lawn Food Granules All Lawn Types** promotes fast green growth and lush, healthy lawns.

Seasol® Power Feed® Lawn Food Granules All Lawn Types is available in a 4kg bag.

4kg

Application Rates

Seasol® Power Feed® Lawn Food Granules All Lawn Types can be used at any time of the year. One application every 8-12 weeks is recommended.

Refer to the table below for the recommended application rate:

	Application	Frequency
New Lawns (older than 8 weeks)	16g per m²	Every 8-12 weeks
Established Lawns	25g per m²	Every 8-12 weeks

Directions for Use

1. Apply 16 grams per square metre to new lawns older than 8 weeks, and 25 grams per square metre to established lawns. Ensure even distribution by hand while wearing gloves.
2. Water in thoroughly after applying **Seasol® Power Feed® Lawn Food Granules All Lawn Types** and sweep any excess granules from pathways and driveways.

   Do not apply any herbicides 8 days prior or 8 days after the application of this product.
